

Alberta Water Polo Communications Process:

Throughout the year, Alberta Water Polo will send out emails to each active club that has filled in the online registration form at the beginning of the season. The club will have identified 2 email addresses where all general communication will be sent to. It will be up to the club to distribute to all their members as it pertains to them. If the email address/contacts change throughout the season, it will be up to the club to send updates. Water Polo Canada sends all their information to the provinces and then you will see how AWPA distributes this, with the exception of NCL items.
