

Athlete Advancement Waiver

This waiver is for those athletes that wish to “play up” one age level classification.

The Undersigned consent to allow the athlete listed below to play up one age level classification. All parties agree to accept all responsibility and associated risks of _____ playing with athletes, who may be stronger and more physically developed than the athlete. The Undersigned confirm that the player has an appropriate understanding of the physical attributes required of, and the risks to players, playing up one age level and that the player has the requisite skills and experience to play at this higher level.

All parties agree that the criteria for allowing a player to play-up will be based on the evaluation of the player’s skill and ability to contribute to the older team, the player’s emotional and physical maturity level compared to the older team’s players, physical size and number of players at each level. The play-up player must be projected to be a skilled player on the older team.

_____ will continue to play full time at their current age group age and fulfill their team duties.

After a weekend of play or three (3) games, if Alberta Water polo feels that the athlete is not ready to play up one age level, and not benefitting from the experience the waiver will be revoked. There will be consolation with the club coach on this.

Athlete’s Age _____

Athlete’s Current Age Group _____

Age Group Athlete wishes to “play up” to _____
